

Raj Sharma

Full Stack Web Developer | UI/UX Designer

 sharmaraj16104@gmail.com  +91 8866732034  [Linkedin](#)  [Portfolio](#)

SUMMARY

Recent Bachelor of Computer Applications (BCA) graduate with strong foundations in full-stack web development. Skilled in JavaScript, Node.js, Python, MongoDB, and modern frontend frameworks. Experienced in building scalable, responsive, and user-friendly websites. Passionate about leveraging AI tools like ChatGPT to speed up development, debug efficiently, and enhance design. Seeking opportunities to apply technical and creative expertise in real-world projects.

EDUCATION

- **Bachelor of Computer Applications (BCA) – Silver Oak University** **2022-2025**
 - Final CGPA: 7.78
- **HSC** **2021-2022**
 - Percentage: 68.5%

SKILLS

- **Programming Languages:** Python, JavaScript, PHP (basic), Java (basic)
- **Frontend:** HTML5, CSS3, JavaScript, Tailwind CSS, React (beginner)
- **Backend:** Node.js, Express.js
- **Database:** MongoDB, MySQL
- **Tools & Platforms:** Git/GitHub, Render, Arduino/NodeMCU (IoT projects)
- **Other:** WordPress (basic), Odoo software (basic), MS Excel, SEO basics
- **AI Integration:** Using ChatGPT for code generation, debugging, optimization, and UI/UX improvements

KEY PROJECTS

CORRONiL CONTROL – Industrial Surface Protection Website

- corronilcontrol.com
- Built a full-stack, responsive industrial website with modern design.
- Tech Stack: HTML5, CSS3, JavaScript, Node.js, Express.js, MongoDB.
- Designed engaging UI with dark mode, animations, hover effects, and interactive sections.
- Developed backend features for contact form handling and database integration.
- Deployed on Render with optimizations for fast loading and mobile-first responsiveness.

Ganesh Engineers – Industrial Engineering & Surface Protection Website

- ganesh-engineers.com
- Developed full-stack, responsive industrial website with modern design.
- Tech Stack: HTML5, CSS3, JavaScript, Node.js, Express.js, MongoDB.
- Designed responsive UI/UX with interactive elements, hover effects, and visually appealing layouts.
- Implemented backend functionalities including contact forms and project submissions.
- Optimized website for SEO, performance, and mobile-first experience; deployed with reliability.

Rajinfoworks – Personal Portfolio & Brand Website

- [Rajinfoworks](https://rajinfoworks.com)
- Designed and developed a personal portfolio website showcasing services, skills, and projects.
- Tech Stack: HTML5, CSS3, JavaScript, Node.js, Express.js, MongoDB, Tailwind CSS.
- Integrated SEO meta tags, Open Graph/Twitter cards, and Google site verification.
- Built reusable UI components with a focus on clean typography and responsive layouts.
- Implemented theme toggling (dark/light) and smooth scroll animations.

AI-Powered Development – Key Project with ChatGPT

- Collaborated with ChatGPT to accelerate project development:
- Code generation, debugging, and performance optimization.
- Improved frontend UI/UX designs with suggestions from AI.
- Implemented best practices for responsive layouts, animations, and backend security.
- Demonstrated ability to blend AI tools with developer expertise to deliver high-quality outcomes faster.

Achievements & Strengths

- Delivered three real-world projects (CORRONiL CONTROL, Ganesh Engineers & Rajinfoworks) live on the web.
- Strong foundation in problem-solving, teamwork, and time management.
- Quick learner, passionate about emerging technologies and AI-assisted development.
